

**Introductory:**

If you know me, you know that I take the job of a PR very seriously. In my mind, you are not just someone who handles scams, but someone who speaks for the people. You are their voice on RC, their opportunity to get their ideas on Era. I expect you to speak up if someone comes to you with a good idea, or if a problem isn't being corrected in a timely matter. Furthermore, although Kinetaro and other admins can fire you and me, I like to believe that we work for the Global Admins. Think of us as the ones who watch over Era for them. We are the eyes and ears for them. If you suspect an Admin of abusing, report it, don't worry about your job.

**Part 2:**

Often you will have to go through logs and make a report to a server admin when you need someone banned or a trade reversed. Here is a little practice test for you. I have provided the logs for you. Here is the scenario.

Icarus (account name xTcDiabloxTc) reports that's someone stole a GG he was using, and we confirmed it was stolen and have banned the thief. You now need to find out what happened to it, what was traded for it, who has it, and you will have to write up a report for his reason for being banned, and you will have to tell me what I have to reverse to correct the issue. We have to make it look like this item was never stolen. So you have to tell me EVERYTHING that has to be reversed, not just about the GG. Also there is a little trick in here, (well I consider it a trick) so make sure you CHECK EVERYTHING. These are people's items, there is no messing around.

(Yes the questions are after the test. If you can't do the test, please don't waste time on the questions.)
